

CORPORATE *Profile*

The background features a light green, line-art style illustration of various herbs, spices, and containers. Visible items include a teacup with a saucer, a glass jar, a mortar and pestle, a bunch of cinnamon sticks, a honey dipper, and several different types of leafy herbs and flowers. The overall aesthetic is clean and natural.

100% Herbal Vegan
No Artificial Additives
Organic No Chemicals

"Health Products" handmade with the perfect blend of spices and herbal extracts for maximum benefit. A complete herbal supplement with no chemicals, artificial flavors or drugs.

WHO WE ARE ?

Herbal Fiji Health Products are handmade with the perfect blend of spices and herbal extracts for maximum health benefit.

The company started in 2015 with only one product line Herbal Fiji, Weight-loss. The target retail market was pharmacies throughout Fiji. By the end of 2016 the company had 14 different product lines. In the year 2020 the company re-branded itself and planned to work on a broad spectrum of products and to focus on export and explore international market, hence by beginning of 2021, Herbal Fiji products were being exported to New Zealand

Our organization is also established and actively engaged in health promoting and health awareness programs. Our subsidiary company Weight Management Clinic, focuses on Weight Management programs providing fitness programs, diet plans and other wellness programs. Wellness Foundation, an NGO set up by our company, helps with community projects like carrying out free NCD screening programs in communities, free wellness programs, health check-ups, organizing blood drives and working with disabled kids.

Vision for our organization is: "Empowering Wellness"

Mission is to use our Health programs, Herbal supplements and community work to help empower wellness amongst our communities.

Our organization goal is not only to be recognized as a health brand, but a brand that genuinely cares.
